

A MESSAGE FROM TOM STEYER

5 Rights

So everyone has an equal chance to earn their fair share of America's prosperity.

I've listened to the people at 40 town halls across America in the past year, and it's become clear to me that we need a new set of **5 RIGHTS** – 5 essential protections that can never be taken away by any politician.

1. **The Right to an Equal Vote**
2. **The Right to Clean Air & Clean Water**
3. **The Right to Learn**
4. **The Right to a Living Wage**
5. **The Right to Health**

I grew up believing the point of our country was to be free – to fulfill the promise that everyone could make a good life for themselves.

But over time, I saw big corporations buy our democracy and set the rules for the sake of their profits, not for the common good. Corporate lobbyists rigged the system, leaving the majority of Americans walled off from their dreams.

We need to turn this around.

We need to redefine what it means to be free in the 21st century, to make sure we all have the same chance to earn our fair share of America's prosperity. That's why we need the **5 RIGHTS**.

I'm hosting a series of events to talk about what these rights mean for us. I hope you'll join us at one of these events or online. Together, we can build a more just and prosperous future.

Thank you,
