John Carney
and Bethany Hall-Long for Delaware
Strong Leadership When It Matters Most

STRONG, STEADY LEADERSHIP

Governor Carney and Lieutenant Governor Bethany Hall-Long have taken a science-based approach to COVID-19 and focused on protecting lives.

RESPONSIBLE BUDGETING

Before the COVID-19 crisis, Governor Carney and Lt. Governor Bethany Hall-Long created a \$125 million reserve fund, which is helping Delaware weather the storm without service cuts or tax increases.

FIGHTING FOR INFRASTRUCTURE AND EDUCATION

The Carney/Hall-Long team has made historic investments in infrastructure and public schools - so all Delaware families have access to good jobs and a world-class education.

John Carney
and Bethany Hall-Long's record:
Working hard and getting the job done for Delaware

Governor Carney and Lieutenant Governor Hall-Long have provided strong leadership for Delaware. The Carney/Hall-Long team passed the largest infrastructure plan in Delaware history – to build new schools, fund more affordable housing, rebuild our clean water infrastructure, and make new investments in our colleges and universities.

Under their leadership, high school graduation rates are up and the dropout rate is down. And we're investing where it matters most – providing new funding for low-income Delaware students.

Before the COVID-19 crisis, Governor Carney and Lt. Governor Bethany Hall-Long created a \$125 million reserve fund, which is helping Delaware weather the storm without service cuts or tax increases.

PEOPLE OVER POLITICS

DrWoodyMyers.com

@DrWoodyMyers

WHY WOODY AND LINDA?

Our state needs new leadership that puts people first, not politics. As Governor and Lt. Governor, Dr. Woody Myers and Rep. Linda Lawson will fight to ensure that all Hoosiers can access affordable health care, students receive a high-quality education, we protect our environment, and workers have good-paying jobs across Indiana.

TOP PRIORITIES

- Access to Affordable Health Care
- Investing in Education
- Protecting our Climate
- Strengthening Hoosier Economic Development
- Supporting a Strong and Viable Workforce

Paid for and Authorized by Woody Myers for Governor

WOODY MYERS

#2 510 words, 3,251 characters

Dr. Woody Myers: Problem-Solver

Dr. Woodrow (Woody) Myers is a third-generation Hoosier, a physician, health care leader (former Indiana State Health Commissioner), business owner, and Democratic candidate for Indiana Governor.

Myers grew up in Indianapolis, graduated from Shortridge High School, and went on to study medicine at Harvard University, and public and private sector management at Stanford University. He has worked as an emergency room physician and teacher at the Indiana University School of Medicine, and he was appointed State Health Commissioner by two Indiana Governors.

Myers has used his experience in recent years as a health care consultant advising not-for-profit organizations, as well as large health care companies on improving their products and services for the benefit of patients. He lives in Indianapolis with his wife Stacy. Together, they have five children and two grandchildren. Here are his policy priorities:

Education: Myers believes Indiana must reprioritize education by raising teacher pay, reducing class size, and by facilitating classroom technology without losing the all-important personal relationships between teachers, students, and parents.

"Until we put education first, we won't prosper," he said. "Our children deserve every chance to learn, to grow, and to reach their full potential." To do that, Myers plans to direct Indiana tax dollars to where they are most needed: into the classrooms starving for help, not into failed statewide testing.

Health Care & Public Health: As the State's former top doctor, Myers will work every day to achieve the goal of "Health Care for All". He has seen first-hand that patients with the best health insurance often receive the best health care, while others do not. Myers believes the way to ensure all Hoosiers receive the health care they need is through improving Indiana Medicaid, fighting for Medicare and private health insurance expansion.

Myers also wants to lower Indiana's infant and maternal mortality rates, which are among the worst in the nation. "Hoosier women need much better access to prenatal care and proven public health programs that help mothers deliver and raise healthy children," Myers said.

Jobs With a Living Wage: An adult working 40 hours earns gross pay of only \$290 per week at Indiana's minimum wage rate of \$7.25. Even those with college degrees can have trouble making ends meet in our state. Myers is making living wages and jobs in manufacturing, agriculture, and technology a major component of his campaign. "We must work far more aggressively to keep the jobs we have and to attract those of the future"

Climate Change and the Environment: For many Hoosiers today, there is no more important issue than the protection of our environment from the damaging effects of climate change, and protection of our health from toxins in our water and our air. Myers will lead a new Indiana Department of Environmental Management, Department of Natural Resources and Department of Health who will work together to put the challenges of protecting and preserving Hoosier health, water, and air first. "We can't wait any longer. Future generations are depending on us."

DAN FELTES (NH) - PRIMARY

427 words, 2,719 characters

"Progressive Policy Focus Puts Dan Feltes In The Spotlight...

His prolific sponsorship of legislation has made him the face of his party at the Capitol...He sponsored 106 bills this year...These include issues like paid leave, minimum wage, and codifying aspects of Obamacare in state law."

NHPR 5/22/19

"Feltes has proven to be a man of principle and character, and has distinguished himself with his depth of understanding on all issues, great and small."

CONCORD-MONITOR 11/3/18

2018 Editorial Board Endorsement

Raised in a blue-collar, union household, Dan Feltes learned to fight for what's right. That's why as a legal aid lawyer and as Senate Majority Leader, Dan led the charge for paid family leave, common-sense gun safety, renewable energy, and expanded opportunities for all.

About Dan: Dan's father worked as a union steelworker in a furniture factory and his mother held multiple part-time jobs to make ends meet. That upbringing is why Dan has spent his entire career taking on the toughest fights to help Granite Staters. After working as a legal aid attorney, in which he stood up for victims of domestic violence, veterans, and low-income families, Dan now serves in the State Senate, where he's led the charge as Senate Majority Leader for a stronger, safer, and fairer New Hampshire. Dan is a husband and proud father of two.

Delivering Progressive Results for New Hampshire:

In the State Senate, Dan:

- Expanded access to health care to 50,000 Granite Staters.
- Protected people with pre-existing conditions by codifying ACA protections in state law.
- Established the toughest drinking water and childhood lead standards in the country.
- Fought for campaign finance reform, independent redistricting, and expanded voting rights.

As Governor, Dan will:

- Expand opportunity for everyone by supporting job training and apprenticeship programs, raising the minimum wage, advancing the clean energy jobs of tomorrow, and investing in education from pre-K to higher education.
- Help families get ahead and stay ahead by addressing rising costs and establishing paid family and medical leave.
- Protect a woman's right to a full range of reproductive services including safe and legal abortion.
- Increase access and capacity to mental health and substance use disorder treatment.
- Protect our drinking water and beautiful natural resources.

Independent Leaders Uniting All North Dakotans

"We know the joys and the struggles of people all across the state. As the greatgranddaughter of founding Nonpartisan Leaguers, and a 5th generation family farmer and former legislator we see the incredible resilience, ingenuity and hard work of our people. We look forward to serving you to create a bright future for all North Dakotans."

- Dr. Shelley Lenz and Ben Vig

Our priorities for North Dakota

Homegrown Prosperity

North Dakota has the opportunity to lead the nation into the future for the traditional industries of agriculture and energy, while creating economic independence, local opportunities, a stable workforce that allows communities to shape their future with good jobs, businesses, and quality of life.

Thriving Communities

Good jobs, strong small businesses, top-notch public education, infrastructure; and access to affordable health care are essential for communities to thrive. We need to elect leaders who are not focused on partisan bickering but ensuring that our state government is working efficiently to play a vital role helping our communities. We will advocate for investments in infrastructure, education and access to affordable, quality healthcare and preventative care.

Efficient Government Working for All of Us

It's time to get away from partisan infighting and division and back to our roots of the Non-Partisan League where the focus is on what we have in common for the good of North Dakota. Right now we need a government that works for all North Dakotans.

David Zuckerman

Will raise the minimum wage.

Supports mail-in ballots to keep Vermonters safe when voting during the COVID-19 pandemic.

Will pass a climate jobs plan to put Vermonters back to work.

Will invest in our schools from pre-K to our state colleges.

Phil Scott

Has vetoed raising the minimum wage, twice.

Opposed mail-in ballots, saying he had "concerns" about them in the primary and general election.

Supported loopholes and vetoed accountability for corporate polluters.

Wanted to implement cuts that would have lost 4000 jobs in our schools and closed our state college campuses.

Governor Jay Inslee
His Commitment To Science and Smart Investments Have Put Us On Course To Weather This
Economic Storm

Governor Jay Inslee acted boldly and decisively in response to a once-in-a-lifetime crisis. His actions saved lives – thousands of them.

The challenges ahead remain daunting, but Governor Inslee's economic vision has positioned us to weather the economic storm and come out stronger on the other side.

Career Connect

This innovative program provides more pathways to good jobs that don't have to include a four year college. Career-oriented apprenticeships and on-the-job training will connect 100,000 students to the workforce, helping us endure and recover from tough times

"The governor's leadership and trust in science has saved lives and ultimately the state economy." Herald 10-11-20

"Inslee's performance during the coronavirus pandemic has demonstrated that he is the right person to guide the state through the crisis." The Columbian 10-4-20

The Nation's Best Paid Family and Medical Leave

The policy allows our workers time off to care for newborns or sick relatives while also protecting small businesses.

Clean Energy Economy

Inslee made our state a leader in growing clean energy jobs, helping build a \$6 billion wind energy industry, increasing the use of solar and electric vehicles, and ending the state's use of coal for electricity.

We invested prudently to prepare for tough times like these. We'll get through this together.
