DAN SULLIVAN

MEET DAN

As your U.S. Senator, I've had the honor of working with Alaskans to help us realize our enormous potential - potential that has too often been thwarted by the federal government.

Thanks to your support, and Congress and the Executive Branch working together, we've advanced critical priorities for Alaska. We've brought jobs and new energy production to the North Slope, and finally opened ANWR. We wrestled back Alaska's rights to manage fish and game. We're improving infrastructure like clean water projects, roads, and ports.

We've secured historic funding for public safety, helped people struggling with addiction, and empowered survivors of domestic violence and sexual assault with more resources.

We've made great strides in improving healthcare for veterans and Alaska families. We enhanced the rights and opportunities for Alaska Native communities. We passed the most significant ocean clean-up legislation in Senate history and increased opportunities for Alaska fishermen. We're building icebreakers and rebuilding our military, with over \$1.6 billion in new investments for our state. America is safer because of this.

We've made significant progress, but we're facing new challenges with the COVID-19 pandemic. I've focused on ensuring that Alaskans have the resources to combat the pandemic on all fronts to ensure the health and safety of Alaskans, while restoring economic stability to our state.

The strength of our economic recovery and future will depend dramatically on this election. My vision for Alaska is one of opportunities for all, where the federal government is a partner in opportunity, not an obstacle. Together, we can build on our successes and continue working towards a brighter future for our kids. I'm convinced our best days are ahead of us. I'd be honored by your vote.

– Dan

Service to Alaskans

Dan has a distinguished record of public service to the State of Alaska, including his previous roles as Attorney General and Commissioner of the Department of Natural Resources. Recognized as one of the Senate's most effective lawmakers, Sullivan serves on four committees critical to Alaska: Armed Services; Commerce, Science and Transportation; Veterans Affairs; and Environment and Public.

Senator Sullivan has a distinguished record of military and national security service. He is currently an infantry officer and Colonel in the U.S. Marine Corps Reserve, serving with the Marine Corps Special Operations Command. Over the past 26 years, Sullivan has served in a variety of command and staff billets on active duty and in the reserves. He is the only member of the U.S. Senate still serving in the U.S. military.

Family

Dan and his wife Julie Fate Sullivan were married over 26 years ago in Julie's hometown of Fairbanks, Alaska, where they first made their home. They later moved to Anchorage and raised their three daughters with the same values that Alaskans have passed down for generations: hard work, service, love of country, an independent spirit, and strength in the face of big challenges.

DAN SULLIVAN DELIVERS FOR ALASKA

REBUILDING ALASKA'S MILITARY

Strengthening Alaska's military by securing \$1.6 billion in new military construction for our state, reversing drastic Obama administration cuts to our military, saving Alaska's very own 5,000-member 4/25 Brigade Combat Team, securing two squadrons of F35s for Eielson AFB, Coast Guard cutters and icebreakers, and upgrading Alaska's missile defense and detection systems.

STRENGTHENING OUR FISHERIES AND CLEANING UP OUR OCEANS

Cleaning up our oceans and increasing the sustainability of Alaska's fisheries by authoring the Save Our Seas Act (now signed into law) and the Save Our Seas Act 2.0 - considered the most comprehensive ocean clean up legislation to pass the Senate, permanently fixing a misguided regulation that required Alaska fishermen to get EPA permits for even the most basic activity, and securing hundreds of millions of dollars in relief funds for Alaska's fishermen.

BUILDING CRITICAL INFRASTRUCTURE

Building up Alaska's economy and jobs by securing \$2.6 billion for Alaska in infrastructure investments for the repair and construction of new roads, bridges, runways, and ports across our state, and authorizing a \$300 million program to improve basic water and sewer services in rural Alaska.

SUPPORTING OUR VETERANS

Fighting tirelessly to ensure that our veterans deserve to get the care that they have earned by improving Alaska's VA health care, increasing the number of VA doctors and staff, expanding facilities and outpatient clinics throughout our state, and ensuring veterans will always have their benefits through Forever G.I. Bill Legislation.

UNLEASHING ALASKA'S ENERGY POTENTIAL AND JOBS

Working to re-energize Alaska, creating new jobs, and leading the charge to unleash Alaska's

energy potential and America's energy dominance by fighting back against job-killing policies like the Green New Deal, successfully opening the 1002 Area of ANWR for development, and reopening the NPR-A for responsible exploration and development.

COMBATTING DOMESTIC VIOLENCE AND SEXUAL ASSAULT & INCREASING LAW ENFORCEMENT

Combatting the scourge of domestic violence in Alaska has been a focus of Dan's since he spearheaded Alaska's "Choose Respect" campaign as Attorney General. His leadership on these issues continues in the Senate with Dan's legislation which is providing more legal services for survivors, protecting workers from sexual harassment, and keeping our children and citizens safe from sex traffickers. Dan continues to advocate for law enforcement and safety needs in Alaska, securing over \$60 million in law enforcement funding from the Department of Justice for rural Alaska, while forcefully arguing against the harmful "defund the police" movement of National Democrats.

A COMPASSIONATE LEADER FIGHTING FOR AMERICA'S ECONOMIC COMEBACK

The pandemic has hit Arizona's families and businesses hard. This is not the time for unnecessary tax hikes and additional taxes. Martha McSally is working to reduce the tax burden on Arizona working families and small businesses, especially as we move toward recovery from the pandemic.

- ✓ Successfully fought for tax cuts that cut \$2000 for the average Arizona family, including tax cuts of 70% for single parents and 40% for small businesses
- ✓ Passing legislation giving tax credits to American companies that move factories and jobs out of China and back to the US

- ✓ On healthcare, Martha McSally will never abandon those with pre-existing conditions. She is leading legislation to lower prescription drug costs, allow small businesses to join together to provide lower cost insurance like big businesses, and help those laid off by coronavirus keep their employer sponsored plans.
- ✓ Martha is fighting to reduce the tax burden for Arizona families. The last thing Arizonans need is higher taxes.
- ✓ Martha is working to grant tax credits to American companies that move their factories and jobs out of China and back into the U.S.

Small Business As a leader of the Small Business Committee, I have led the fight for policies to help Idaho businesses grow and eliminate stifling regulations. As a conservative, I know that the best way to create jobs is by allowing Idahoans to keep more of their hard-earned money.

Defense The United States Armed Forces are, and must remain, the strongest in the world. A rising and aggressive China and a resurgent Russia make credible deterrence even more of a national imperative. We do not seek conflict, but the US will protect American lives and our vital national security interests.

Immigration We must protect our borders. Without border security, we have no national security. I support the President's efforts to stem the tide of illegal immigration and ensure only those who come here legally are welcomed into America.

Health Care The costs of health care and prescription drugs are out of control. I will stand up for Idaho families' access to affordable, quality care.

Debt The government spends beyond its means, leaving a crushing financial burden to future generations. We must reduce spending and balance the federal budget like we do in Idaho.

"My family is the best reason I have for keeping Idaho a great and safe place to live."

I Won't Let Illinois Be Left Behind!

"I'm Mark Curran and I am running for U.S. Senate in 2020 because our faith, our freedoms and our values are under assault from establishment elites, including political dinosaur IL- D Senator Dick Durbin, who has been in Washington D.C. since 1983. Durbin said he believes the Constitution is 'fatally flawed.' Yet, when Term Limits legislation was on the table in 2012 Durbin refused to support Term Limits, saying it was 'unconstitutional.' The constitution is his rag doll.

I am running because America is worth fighting for. I have made a career in law and order spanning decades. My focus was always keeping Americans safe and upholding the Constitution. I made it my life mission to fight for the middle class and the disenfranchised. I will be a strong voice for faith, family & freedom and fighting for those dealing with poverty in our country by lifting them out through education and jobs they may find currently unattainable in Illinois. I think everyone has the right to live freely, be safe and have opportunities. We Americans should be encouraging one another to aim to be a contributing asset to our country."

Steve Daines for U.S. Senate
MORE JOBS, LESS GOVERNMENT

CREATING JOBS, BALANCING THE BUDGET
Daines spent 28 years in the private sector and created over 500 Montana jobs. He's also working to pass his Balanced Budget Accountability Act, which says if members of Congress don't balance the budget they won't get paid.

PROTECTING VETERANS
As the son of a U.S. Marine, Daines will always fight to protect the health care of every Montana veteran – including our Vietnam veterans – and ensure our veterans' pensions are protected from scam artists.

LOWERING HEALTHCARE COSTS
Daines is leading the fight to pass a bipartisan bill that lowers the cost of prescription drugs for Montana seniors by \$20 billion and saves taxpayers \$100 billion.

"It's time to get tough on crime and make New Mexico safe." — Mark Ronchetti

Tough on Crime

Crime in Albuquerque is out-of-control — it's the seventh most violent city in the country. Yet now politicians are talking about "defunding the police." That's reckless and irresponsible.

Mark Ronchetti knows that New Mexico needs more police, not less. In the U.S. Senate, he will fight every day to:

- Bring more federal help back to NM to make our streets safer
- Support law enforcement with the resources and officers needed to solve our crime problems
- End Sanctuary City policies that allow illegal immigrants who commit crimes to remain in the country

Put New Mexico First

Mark Ronchetti left the job he loved to run for U.S. Senate because he felt passionately that the political insiders in Congress put politics ahead of the needs of New Mexico. We deserve a Senator who will always put New Mexico first.

For Such A Time As This

Our country is so terribly divided. It seems we are divided by almost everything; the color of our eyes, our hair, our skin, where we live, our jobs, our political views and more. Yet with all this division, I venture we have much more in common than most of us realizes. For example:

Do you want to love and be loved? Have food on your table, be able to provide for your family and have a roof over your head? Do you want to be safe and secure in your home ? For the most part, do you want the government to leave you alone?

If you said yes, then we agree! Do you agree,

Our children, grandchildren, great grandchildren should be able define their own success whether that is going to work, then simply hanging out with their family; joining the Peace Corps, being on the mission field or building a business where they provide jobs for others?

If you said yes, then we agree!

Our country is the country of Freedom, Life, Liberty & the Pursuit of Happiness. Please join me to preserve our Republic.

My Promise To You

Before I vote on a bill, my team and I will read it. To consider a yes vote, the bill must:

2. Be free from pork barrel spending and/or other non-related issues. End Waste, Abuse and Fraud
3. Be fiscally and socially conservative.
4. I will work to reduce regulations, ensure laws and bills are understandable concise, precise, and single issue.

Allen on the Issues

Fight corruption - To preserve our republic, and free campaigns from the suffocating grip of big money, Allen supports a Constitutional amendment which states: "Congress and the states may regulate and set reasonable limits on the raising and spending of money by candidates and others to influence elections"

Tax and the economy - The only true way to solve the problems of both RI and America is to grow the economy. We need to continue the process of removing job-killing regulations that hurt growth. The best taxes we can have are the lowest taxes we can have, so our goal must be to reduce the cost of government at all levels

National defense - Allen supports the continued modernization of the defense of the United States. This includes the updating and expansion of our submarine force as well as increased domestic security to guard America against terrorists in this time of increasing trouble

Support for our veterans - While we have seen positive steps, we are not where we need to be. Veterans' care, in particular the long term treatment for items such as PTSD, must evolve further

Strong Economy, Low Taxes

Sen. John Cornyn believes keeping taxes low and stopping unnecessary government red tape creates jobs, grows paychecks and the economy, and spreads prosperity. He voted for the 2017 tax cuts and for extending the Bush tax cuts and opposed the Obama-Biden tax increase.

Strong Military

Cornyn has worked with Republican presidents to ensure peace through strength by keeping our military strong and ready to deter any adversary.

American Energy Independence

Cornyn knows the Democrats' radical Green New Deal would kill the Texas economy, take billions from our schools and throw millions of Texans out of work. America is reducing greenhouse gas emissions while becoming a net producer of energy—that's good for jobs, the environment and our country.

Conservative Judges

A former Texas Supreme Court justice himself, Cornyn believes judges must strictly interpret and apply the law and Constitution as written, not be legislators in robes. He helped confirm four conservative Supreme Court justices and is working on his fifth now.

Secure Borders

Knowing the legal immigration is good for America, Cornyn also believes we must control our borders so we know who's coming in and out. He supports a wall where needed and backs our Immigration and Customs Enforcement officers.

John Cornyn is a principled, thoughtful conservative who shares our values.

John Cornyn: Thoughtful Leadership for Texas

A PLAN TO PROTECT TEXANS WITH PREEXISTING CONDITIONS

- Preserve protections for all Americans.
- Ensure those who lose their job during the pandemic keep their insurance.
- Curb prescription drug prices by preventing pharmaceutical companies from avoiding competition from generic brands.

WORKING WITH RAPE VICTIMS TO CHANGE THE SYSTEM

- Reauthorized landmark legislation that's provided more than a decade of support for survivors and a tool in the fight to end backlogs of untested rape kits.

"If you've not had the chance to meet a survivor and hear their stories, you must, because the survivors I've met and worked with over the years in Texas, they are truly inspiring, and I am glad we can get this bill finally passed on their behalf."

BRINGING BACK OUR ECONOMY

As America begins to recover from the COVID-19 pandemic, our top priority must be to get employees back to work, get small businesses thriving again and ensure families can make ends meet, all while keeping one another safe. Daniel will spur economic growth by fighting to slash taxes, cut red tape and keep the government out of our pocketbooks.

EDUCATING AFTER COVID-19

As a college professor and educator, Daniel understands firsthand the importance of our children's education. America must ensure our nation's children have every chance to succeed and that starts with safely re-opening schools, providing parents and students with every option available, reforming a broken system controlled by Washington bureaucrats, and expanding vocational training opportunities.

REFORMING HEALTHCARE

Daniel's year in the hospital recovering from his combat wounds allowed him to realize how truly broken our system of care is. 15 years later, little has improved. COVID-19 has changed the way we offer services and treat patients, and it's time we reform the way the healthcare and insurance industries work. We must ensure protections for people with pre-existing conditions, empower free markets and competition to drive costs down, and allow doctors and patients to make their healthcare decisions, not out-of-touch government bureaucrats.

SUPPORTING OUR VETERANS

Daniel is a lifelong soldier, a combat veteran, and lost his right leg protecting our country. He knows the sacrifices our brave service men and women make everyday and has spent his entire professional life placing vets in jobs, reforming our VA and protecting our brave men & women on and off the battlefield. No one is better suited to fight for them in Washington.
